Exhaust System
MoTeC Box
Conduit Box
BSPD
Relay Board
APPS
Note: 0V Aux, Chassis Ground & 0V Comms shll be common
Notes: APS1 & APS2 are clad harness after the joints with shielded pair cable
Notes: MoTeC and Conduit Box are stacked on each other
Note: Need to setup 27 & 28 function of SW IN1 and SW IN2
Note: Also need to change gear ground to ENG ground only
Notes: Main Bus comes from Bottom of Firewall, climbing to the C-Box and M-Box. The buses like the engine block etc are small buses to converge to the main bus
Notes: Just a symbolic representation for GND Label matching GND global
Note: Charging Port with Dust Cap
This slide is bottom left of conduit box
This slide is bottom right of the conduit box
